The 8.5×11 introduction poster includes:

- a photo clearly identifying the student to the children and families,
- a paragraph (minimum) including:
 - the student's name,
 - where they live,
 - what practicum they are completing (Practicum 1, 2 or 3) and the dates they will be in the program,
 - why they decided to be an early childhood educator,
 - Hobbies and interests and
 - Anything else they want to share.

Be sure your content is visually pleasing, and easy to read from a “standing in the hall” perspective. For example, if your write up is too long you will have to use a smaller font to fit it on your page making the poster difficult to read.
